

# CRAFT/BS11000 Collaborative Frameworks

## The Knowledge Hub

## The Knowledge Hub

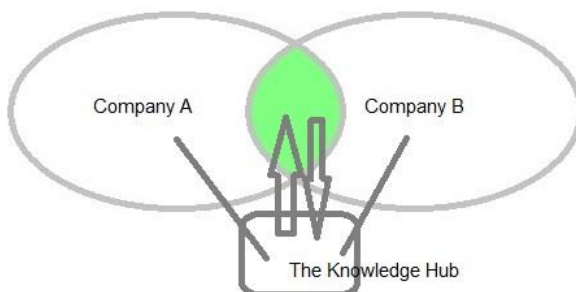

The manager or proprietor of a small business who wants to engage in a collaborative project needs to share information with his or her collaborative partners

**The challenge is how to manage information in the collaborative space.**

Many small businesses have computer systems that include an accounting package, MS Office or an equivalent business administration suite, with internet and e-mail facilities.

**Joint working with another organisation needs an extra element.**

## The Knowledge Hub

The Knowledge Hub is a simple on-line tool specifically designed to provide a dedicated I.T platform supporting small business collaborations.

It provides a structure for shared information between businesses including:

- **Joint Objectives**
- **Exit Strategy**
- **Review Timetable**
- **Relationship Management Plan**
- **Risk Register**
- **Innovations – Adding Value**
- **People - Roles and Responsibilities**
- **Shared Documents**

This is an On-Line service protected by secure login and hosted in the UK

**Big Company facilities at a Small Company price.**

£100.00 + VAT setup fee

£49.00 + VAT annual hosting fee\*

**= Your collaboration supported for £149.00 + VAT**

*\* Storage limits apply*
